

The Detroit Spectator says:—It is reported that a bill has been presented to have the General Government removed from Washington to White Rock city, in this State. It is also reported that Martin Van Buren and Daniel Webster are in favor of it. We don't believe this report. In answer to which the Monroe Democrat remarks: "Nor we either. Michigan, to be sure, is a State not to be sneezed at; and White Rock city from its admirable locality and peculiar advantages, is no doubt destined to become a mighty city—and that soon too; but the idea of its becoming the capital of the United States, is preposterous."

The above is certainly the greatest humbug we have seen for some time. In order that our readers may know a little something in relation to White Rock city, we would merely state, that four lots in this great place were sold last winter to a gentleman of Perryburg, for the enormous sum of five dollars! There is timber enough standing on the town, to build a dozen such cities as Washington.

HEAVY FAILURES.—Several extensive failures have taken place in New Orleans, which have had their usual effect upon the business men of the other cities of the Union. The well known banking house of Messrs. J. L. & S. Joseph & Co. in New York, were obliged to suspend payment on Friday, March 17. The opinion is however expressed in the N. York papers, that the suspension will be only temporary, but there is as yet no news of a resumption of payments.

It is said that N. Biddle, Esq. has offered the Messrs. Joseph a loan to the amount of a million of dollars.

FALLING HOUSES.—The houses of our fellow-citizens at the East, seem to be tumbling about their ears at rather a dangerous rate. The fine new block of fire-proof banking houses, at the corner of Wall and William streets, New York, owned by the Messrs. Josephs, fell a few days ago, with a crash that shook the whole of that part of the city. The loss is estimated at from \$200,000 to \$100,000. Two large brick houses in Fulton-street, near Broadway, fell on the 13th March. A few days before, the second floor of an iron warehouse, belonging to Gilbert & Co. of Hartford, Connecticut, fell, making a terrible clangor among the pots and kettles. No persons have been killed by either of the above accidents, though in the last two or three were severely injured.

There is no doubt but our Western country is flooded with counterfeit coin. Imitations of almost all the coin in general circulation, are daily seen and passed. The half dollars are the most common, next to them the five franc pieces and Mexican dollars, and Spanish milled dollars and twenty-five cent pieces, are quite common. This coin in weight, color, specific gravity, malleability, and workmanship, so nearly resembles the genuine, that it is detected with the greatest difficulty.

STEAMBOAT MONROE.—It will be seen by an advertisement in our paper, that this splendid boat will, on the complete opening of navigation, commence making regular trips from Buffalo to this place. Messrs. Forsyth & Hazard having secured the control of the Monroe, she will leave their wharf every Saturday, at six o'clock, p. m., for Buffalo, touching at Perryburg and Toledo. The Monroe is a fine high pressure boat of about three hundred and fifty tons burthen, superbly finished and furnished, and in point of safety, convenience, speed and beauty, is exceeded by few if any upon Lake Erie. She was built in 1825, and will be commanded by Capt. Homans.

STEAMBOAT COM. PERRY.—This favorite boat will commence making her regular trips from Buffalo to Perryburg in a few days. She is fitting up in good style, and making such changes in the disposition of her engine, as is thought will materially increase her speed. She will be commanded by Capt. Wilkinson.

PERRY AND THE FOOT OF THE RAPIDS.—The means of communication between these two points will, this season, be much increased above those of last year. The Perry, Monroe, and Newbury, will make Detroit a point in their trips; also the Cincinnati and the Mazepa, Jackson and Brady, are to run regularly between the two places.

The Engineers for the Wabash and Erie Canal, leave to-day, for Defiance, for the purpose of making a commencement of the final location of the canal, at the point of junction of the Wabash and Erie with the Miami canal.

The Steamboat Columbus broke ground on the flat in front of Toledo, on Thursday last, and at the latest advices was lying there still, with her water line about two feet above the water.

Seventeen Steamboats are now building at different ports on Lake Erie.

INTERESTING DISCOVERY.—A female corpse, in the dress of the ancient Britons, was lately discovered in a peat bed in a state of entire preservation. It must have remained there at least sixteen hundred years.

The National Intelligencer announces the death of the Chevalier Severin Lorch, Charge d'Affairs of His Majesty the King of Sweden and Norway. He appeared at the inauguration of the President, with the other members of the diplomatic body, on the 4th instant, but became so ill, that he was obliged to be removed from the Capitol to his lodgings before the ceremony was concluded.

[From the U. S. Gazette.] LATER FROM EUROPE.

By the arrival this morning of the packet ship Utica, from Havre, whence she sailed on the 25th of February, regular Paris files to that date have been received, being seven days later than previous advices.

ATTENTION TO THE LIFE OF THE KING.—A new attempt had been discovered on the life of the King, the author of which was a man named Champion, a mechanic. Materials for the construction of an "infernal machine" were seized at his residence and circumstantial evidence left no doubt as to his murderous intention. Shortly after his arrest, he took advantage of his keeper, and hung himself by means of his cravat.

Correspondence of the N. Y. Journal of Com. SMYRNA, Jan. 26, 1837.

It seems that we have occasion both to state when there is a plague here, and when there is not; or have our ships quarantined,—and I beg to say, that although the plague is expected in the course of the summer, there is at present no suspicion of its existing in Smyrna.

A letter recently received from Beyrout, dated January 11, 1837, says: "A most sudden and awful earthquake was felt here in Beyrout, on Sunday the 1st, at 5 P. M. But very few lives, however were lost in this vicinity. Many houses have fallen, and scarcely one has escaped some injury. Accounts from Saffet are most distressing. Only two hundred, out of all the inhabitants, amounting it is believed to nearly FIFTY THOUSAND, have escaped with their lives. At Sour and Sidon several persons were killed. Naples is said to be destroyed. Acre has suffered a great deal. We wait with much concern to hear from Aleppo, Damascus, Jerusalem, and Cyprus. Vessels two hundred miles distant felt the shock."

[From the Baltimore Patriot.]
WAR IN FLORIDA ENDED.

A slip from the Savannah Georgian has the following:

BLACK CREEK, March 10, 1837.
Dear Brother—An express arrived at this place 12 o'clock last night, bringing the agreeable news from Gen. Jessup, that the war is in reality closed. The Indians have given up—have surrendered. All the chiefs but Oseola have come in, and have consented to removal. All are to assemble at Tampa Bay by the tenth day of April next, prepared for removal to their western homes. The Indians say that Oseola is on the Suwannee, and that they will bring him to Tampa Bay by the 10th April. In great haste or I would write more fully.

Yours, &c.
BENNET M. DELL.
To Col. James Dell, Jacksonville.

LATE FROM MEXICO.—Intelligence from this country has at length been received by the arrival at New Orleans, on the 12th instant, of the schooner Creole, in six days from Tampico.

We learn from her that a fleet consisting of 4 brigs and 3 schooners of war had sailed from Vera Cruz for Matamoros, destined to operate against Texas. Every thing was tranquil in Tampico. There was about 800 troops there in garrison.

Santa Anna arrived at Vera Cruz on the 21st of February, where he was rather coolly received, and with no more honors than was due to a common Mexican general. He left immediately for his estate, Mango de Clavo.

DEATH BY HYDROPHOBIA.—Major Packard of Brimfield, Ohio, died of this terrific disease Feb. 22d. The Ohio Star says it has caused great sensation. Two boys also of Springfield, in the same county, have been bitten. One of them is dead, and the other has been taken down with the disease, and of course has perished, as few cases of recovery have occurred. Cattle and sheep in that neighborhood to the amount of several hundred dollars, have also been bitten. War was declared against the dogs at Ravenna, Feb. 27.

While on this subject we may remark that the part bitten should be cut out immediately. A case of a man and wife at Montreal recently is in point. The man had the bitten part cut out and lives—the woman refused to be operated upon and is dead of hydrophobia.

NEW ORLEANS, March 8.—STEAMBOAT BURNED.—About half past seven last evening, the Steamboat Rob Roy, Duval master arrived from Louisville, laden with flour, lard, &c., took fire at the Poydras street wharf, and was burnt to the waters edge in the short space of three quarters of an hour. No lives lost.—The flames broke out in the stern of the boat, and the flames spread so rapidly that the officers lost nearly all their trunks. The Rob Roy was an old vessel, and noted for killing several persons by the bursting of a boiler last year at Columbia on the Mississippi.

N. O. American.
EARTHQUAKE.—The shock of an earthquake was distinctly felt in Quebec, on the morning of the 9th instant. Its duration was from half a minute, and the buildings were so much agitated as to shake the furniture, wake persons in their beds, and occasion the hinges of the doors to creak. It was accompanied by a rushing sound, such as is heard when a flue is on fire.

REMARKABLE DISCOVERY.—It is well known to our readers that among the many natural curiosities found in the extensive caves and grottoes in the vicinity of the Great Laurel Ridge, (Cumberland Mountains) many human skeletons and bones of animals have been discovered, some of them in a petrified state. These caves abound in prodigious vaulted apartments and chambers, which, when viewed by torch light, exhibit scenes of gloomy grandeur and astonishes the beholder. Several petrified trees have also been discovered on the banks of the River near this ridge, and also bones of mammoth, and other animals, whose races are now extinct.

But the most remarkable discovery that has ever been made in this part of the country—if not the greatest natural curiosity in the world, was brought to light on Sunday, 24th Jan., by two scientific gentlemen with whom we are acquainted, and who are now in town. They have been several weeks exploring the caves above alluded to, and gathering such curiosities as they wished to carry away with them.

They are provided for this purpose with a boat of gum elastic, and capable of buoying two persons. With this boat, and other conveniences procured for the purpose, they will, undoubtedly, before they leave their task, penetrate every accessible hole in the West Cumberland mountains—for they are determined to spend the whole season among them.

The wonderful discovery which will now shortly be presented to the public is three petrified bodies entire, one of a dog, and two human bodies, one of them holding a spear. It is believed by these gentlemen, that all three of the bodies may be removed from their position in a perfect state—though the dog, being in a lying position upon a flat rock, it will undoubtedly be a difficult task to remove it uninjured. The human bodies appear to be those of men—probably hunters. Their clothing can hardly be distinguished—but still it is evident that that too was in a measure turned into stone.—They are described thus—one sitting, with the head leaned as it were against a projecting rock, and the other standing, with a spear balanced in his hand, as though he was surprised, and had just started on a quick walk. The dog lies as if crouched in terror, or about to make a spring—but the features, or body, is not distinct enough to determine which position.

This wonderful formation cannot be accounted for in any other way than that these persons were buried by some terrible convulsion of nature. The cave in which they were found is full 125 feet into the mountain, and is situated about a mile and a half beyond what is called Mammoth Grotto, in a direct line. The entrance to the place is difficult, and it is thought it was never before attempted at all. At the foot of the entrance of the cave is a considerable brook of water, which appears to gather from all parts of it. There is also a valley thence to the river. The gentlemen who have made this interesting discovery are making active preparations to bring away the bodies, which they intend to have forwarded to New York.

Since the above was written we have had an invitation to visit the cave and bodies, which we shall most cheerfully accept. We have hitherto declined to mention the names of the persons to whom we have alluded to in this account. One of them is a wealthy English gentleman, resident of Philadelphia, John Chester, Esq. and his companion is Mr. Jacob L. Davis, a Philadelphian. The object of their scientific researches is principally their own gratification. We shall next week give our readers some further particulars relative to the position of the cave, etc., which our visit will enable us to do.—Hamilton (Tenn.) Observer.

CONGRESS OF WOMEN.—It is stated that the Anti-Slavery Ladies of Boston and Philadelphia have held a correspondence on the subject, and decided to call a convention in New York, to adopt measures for the abolition of Slavery.—Their husbands will probably have to stay at home, and take care of the children. Yankee women are fond of wearing the breeches. Will the south send us a delegation, booted and spurred, to meet and combat the opinions of these dear ladies! We promise to see fair play!—Y. N. Express.

MELANCHOLY.—On the coast of Ripon, in North Jutland, a sealed bottle was washed on shore on the 10th ult. containing the following note:—"Sarah, off Valparaiso. We are wrecked: crew 31, passengers 14. General Phips and family are already washed overboard. This, please the Almighty, will be the first announcement of this wretched shipwreck and loss of life. When this may be found let it be noticed. [The signature (one syllable) not legible.] Capt. Sarah."

HENRY BARTOW, died near Columbia, in Texas, in June last. The Argus says that he had purchased a farm on the Brassos, and in company with a native of the country, had commenced an extensive plantation, and had sent \$10,000 to Cuba for the purchase of Slaves.—He is supposed to have taken with him into Texas only \$12,000 or 15,000.

FEMALE HEROISM.—An instance of female heroism is related as having taken

place during the late campaign against the Seminoles of Florida, well worthy of being handed down to posterity. A Mr. Sikes, together with his wife, their only daughter, her husband Lieut. Smiley, and infant child, and three old negro women, occupied a house which was attacked by a large body of Indians. The first alarm was given by the discharge of three muskets fired at Lieut. Smiley who was chopping wood in the yard, the balls from which caused his immediate death. His father-in-law, who was near him, fled instantly to the house, where he entered without injury. Fortunately there were seven muskets in the dwelling, which were loaded in succession by the negro women, and discharged at the assailants by Mr. S. and wife and daughter. The last mentioned lady was very active in avenging the death of her husband, and killed three of the Indians. The attack was continued until dark, when the savages retired having lost five or six of their number.

GILLESPIE'S EXCHANGE, BARNESBURG, 2 miles west of Fort Defiance.—The subscriber having taken the above new and commodious Establishment, takes pleasure in announcing to the public generally, his determination to merit their confidence and patronage. The house is large, new and convenient; and he pledges himself that there shall be no lack of COMFORTABLES about it when the country will furnish them.

The STABLES are good, and will be well stored with provender, and attended by a faithful, attentive and trusty hand. In short, there shall be no pains spared to render this house a desirable resting place for the way-worn; a comfortable home for the sojourner; and an agreeable stopping place for every gentleman or lady, whose business or pleasure may induce them to call. In discharge of his duty to travellers from the east, bound for Fort Wayne, or the Wabash country, he feels bound to say, that there will be a saving of time, money, and expense, by keeping the road on the north side of the Maumee river, through this place, instead of crossing at Fort Defiance, as they will save fifteen or twenty miles of the worst road of the Maumee Valley, and be spared the expense of ferrisage, as the Maumee river is generally fordable at New Harrison, 25 miles from Fort Defiance, at the Indiana State line. His warmest gratitude being due to a generous public for their liberal support, while keeping a public-house in Fort Defiance, he renders them thanks for the past, with an honest confidence that he may not be forgotten in times to come.

SYLVESTER BLACKMAN.
Brunnersburg, 1837. 2f

WASHINGTON HOUSE.—The subscriber would give notice that his house is open for the accommodation of travellers and Boarders, on Canal-street, near the Steamboat Landing, where he will be happy at all times to make the sojourn of his guests as agreeable as possible.

J. W. CONVERSE.

Maumee city, April 8, 1837. 2f
